## ABOUT ME

Cybersecurity Professional with hands-on experience in **Vulnerability Assessment** and **Penetration Testing (VAPT)** across **web applications, APIs, and networks**. Skilled in **identifying, analyzing, and mitigating security vulnerabilities** using industry-standard tools and manual testing techniques. Strong expertise in preparing detailed security assessment reports, risk ratings, and remediation guidance. Experienced in performing manual security testing aligned with **OWASP Top 10, SANS 25**, and industry best practices. Hands-on experience with tools such as **Burp Suite, Nmap, Metasploit, OWASP ZAP, Nessus, Nikto**, and various exploit utilities.

---

## EDUCATION

**Haldia Institute of Technology** | Haldia, West Bengal, India | **2023 – 2027**

Bachelor of Technology computer science Engineering (CYBER SECURITY)

CGPA: 7.96 / 10

---

## SKILLS

Penetration Testing, Web Application Security, Network Pentesting, API Security Testing, Bash Scripting, Reconnaissance, Security Reporting, Security Tools, Technical Writing, OWASP TOP 10, Communication Skills

---

## EXPERIENCE

**Independent security Researcher** | 2025 - Present

- Performing **Vulnerability Assessment** and **Penetration Testing (VAPT)** for **web, mobile, API, and network** applications
  - Conducting **manual security testing** aligned with **OWASP Top 10** and **industry best practices**
  - Preparing **comprehensive security assessment reports** with **risk ratings, POCs, and mitigation steps**
  - Leading **end-to-end VAPT cycles**, including **scoping, testing, reporting, retesting, and closure**
  - Actively contributing to **internal security improvements** and **knowledge sharing within the community**
- 

## PROJECTS

**EchoJS** : Firefox extension to collect JS URL

[Link](#)

- Developed a **lightweight Firefox extension** that dynamically **collects and tracks all JavaScript files**
- Automates **JS urls discovery** to eliminate manual DevTools analysis, with **exportable paths for further security testing**
- Enables **security researchers and bug bounty hunters** to identify **hidden API endpoints, unlinked routes, and hard-coded secrets**

**BurpSuite Extensions** : Collection of custom Burp Suite Extensions.

[Link](#)

- **Developed and maintained custom Burp Suite extensions to streamline bug bounty and security testing workflows**
  - **Built extensions to deduplicate HTTP traffic and identify leaked cloud storage buckets (AWS S3, Azure Blob, GCP)**
- 

## RECOGNITIONS/CERTIFICATIONS

- Recognized in the **Hall of Fame** by **British Airways, Zoho, MakeMyTrip, and Klook** for responsible disclosure of security vulnerabilities [H1 Profile](#)
- Attended **BSides Ahmedabad**, a leading information security conference [Link](#)
- Ranked in the **Top 1% globally on TryHackMe** for solving diverse **CTF** challenges [THM Profile](#)
